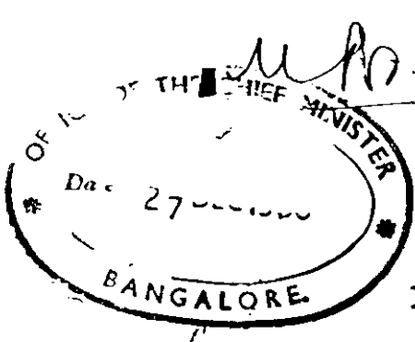
MINUTE

*Dated.*24th December....*196* 8



MA.MA.115/68

Minute!

It is learnt that there is a move to fill up all the existing vacancies in the cadre of Assistant Engineers numbering about 130 by promotion of Junior Engineers and Supervisors. This has agitated the minds of the Scheduled Castes and Scheduled Tribes, Legislators and also the leaders of these communities. At present the representation of Scheduled Castes and Scheduled Tribes in Class I & II servies of the Public Works Department is negligible. It seems not even a single Scheduled Caste and Scheduled Tribes official got promotion against 100 vacancies of Assistant Engineers filled up by promotion since 1958 and none do get promotion against the 130 vacancies now proposed to be filled up by promotion. Besides, it is apprehended that even if 200 more vacancies are to be filled up by promotion not even a single Scheduled Caste and Scheduled Tribes official can expect any promotion in the cadre of Assistant Engineers. Such being the case, it is a pity Government has contemplated to fill up all the vacancies only by promotion, contrary to the Cadre and Recruitment Rules which provides for filling up of 40% of the posts of Assistant Engineers by Director Recruitment, ignoring the Constitutional safeguards provided to these neglected sections of the society. The reasons for the Scheduled Castes and Scheduled Tribes officials not finding a place in the promotion list is obvious. The Scheduled Castes and Scheduled Tribes officials have taken up technical education in recent years and since 1959, about 70 candidates have obtained B.E. Degree and have joined service as Junior Engineers. If the vacancies are not filled up by direct recruitment, there is no chance to the Scheduled Castes and Scheduled Tribes candidates getting into the cadre of Assistant Engineers for a

P.T.O.

number of years and thereby Government will be denying the representation of the Scheduled Castes and Scheduled Tribes in this cadre infringing of the safeguards provided under the Constitution. If Government is keen on filling up the existing vacancies in view of exisgencies of service, it is requested that the vacancies may be classified as per rules and the Scheduled Caste Junior Engineers may be appointed against 18% of the reservation quota pending filling up of the posts through the Public Service Commission. In classifying the vacancies, the posts that have been fallen vacant since 1958 may please be taken into consideration.

The Hon'ble Minister for P.W.D. and the Hon'ble Chief Minister will please consider this ~~item~~ issue sympathetically and pass early orders in this behalf.

Note 3

It is a fact that no recruitment for the posts of AEs has been made since 1958. For purposes of administrative convenience and in the exigencies of service, only officiating promotions to the posts of AEs have been made since then and of late even regular promotions (officiating) have been stopped but only in-charge arrangements are being made pending finalisation of the ISS list of JEs Now that the final ISS list of JEs has been published, it is proposed to fill up the existing vacancies on the basis of the final ISS list. The CE (C&B) has been requested to send the CRs of first 200 JEs excluding those who are already promoted, which is awaited. The Amendment to the cadre and Recruitment Rules are being considered and is expected to come early. After it is issued it will facilitate direct recruitment And the SEs and SPS will get their reservation according to Rules.

9/1/69

10/1/69

PP Agent 10/1

The Cadre and Recruitment Rules of the P.W.D. were published on 3.12.60 and has been made effective from 1.3.58. According to this, there are 700 posts of Asst. Engineers (Division-I) and 70 posts of Asst. Engineers (Dvn. II). According to the provisions of the Cadre and Recruitment Rules, 33-1/3 % vacancies in the Cadre of Assistant Engineers (Division I) are to be filled up by direct recruitment of Engineering Graduates and 66-2/3 %

by promotion from the cadre of Junior Engineers (Graduates). 70 posts in the cadre of Asst. Engineers (Division II) are to be filled up from the cadre of Supervisors (non-graduates) every eighth vacancy, however, being filled up by promotion of Draftsman having field experience of one year.

Since 1.3.58, 586 Junior Engineers have been promoted as Asst Engineers. // One ~~one~~ batch of 88 Engineering Probationers were recruited in the year 1961 and even with regard to this batch of Probationers there was a Writ pending in the High Court and Supreme Court challenging the appointment of these 88 Probationers and consequently the absorption of these Probationers had to be deferred till the year 1966 when the Supreme Court held that these appointments were validly made. On account of the pending Writ, no direct recruitment could be made to the Cadre of Asst. Engineers (Division-I). /

4 / The last promotion made to the cadre of Asst. Engineers (Division-I) was in 1963 and no promotions have been made since then. //No further promotions could be made because there were several writs filed in the High Court of Mysore by the non-Graduate ~~Overseers~~ and Supervisors of Hyderabad, Bombay and Madras challenging the equation of posts ordered in the New State of Kerala Engg. according to which all non-Graduates from different areas were included in the cadre of Supervisors and all Graduates in the cadre of Junior Engineers. These writs were filed by the Petitioners on the ground that in their erst-while States, there were no separate cadres for Graduates and non-Graduates. The High Court in

Reasons for not making any direct recruitment to AE cadre after 1964

admitting these writ petitions quashed the orders of Government regarding equation of posts in so far as it sought to split up the cadre in the several integrated areas. As a result of this decision of the High Court, a combined list of Junior Engineers consisting of Graduate Engineers of all areas and non-Graduate Overseers and Supervisors of Hyderabad, Madras and Bombay was prepared in August 1966. Even this list was challenged in the High Court by the old Mysore Graduate Junior Engineers and the writ petition is still pending, and pending decision on this case, the High Court had stayed the publication of the final I.S.S. List and it was only last month that this stay was vacated. After this vacation of the stay, final I.S.S. list of Junior Engineers as approved by the Government of India has been published on 30/12/68. This list consists of Graduates and Non-graduates of all areas.

3. On account of these writs and counter-writs, no promotions have been effected to the cadre of Asst. Engineers from 1963 as stated above. The Chief Engineer has reported that there are about 100 vacancies of Asst. Engineers which have not been filled up during this period and in which only in-charge arrangements have been made. Now that the final list has been published, it is proposed to fill up these 100 vacancies according to the C&R Rules. But C&R Rules as they now exist, provide for promotion of Junior Engineers (Graduates) to the cadre of Asst. Engineers (Division-I) and Supervisors (non-Graduates) to the cadre of Asst.

Engineers (Division-II). Since a common list has now been published and is to be operated upon for purposes of promotion, it is proposed to amend the C&R Rules providing for the promotion of only Graduates from among the common list of Junior Engineers to the cadre of A.Es. (Division-I) and only non-Graduates from among this common list to the cadre of A.Es. (Division-II). The draft amendment ~~approved~~ is sanctioned by the PSC and Law Deptt. is being submitted separately for approval by the Cabinet.

6 Proposals also had been called for from the C.E. for filling up the existing 100 vacancies of A.Es. from graduates and non-graduates and the same have been received just yesterday and are being examined.

7 Please see Minutes of the Minister for Agriculture at Minute No.1.

8 The point made out is that not even a single Scheduled Caste and Scheduled Tribe official has been promoted to the cadre of A.Es. from 1958 and even if all the existing vacancies are to be filled up by promotion no S.C. or S.T. official can expect promotion. The Minister for Agriculture has, therefore, suggested that the vacancies may be classified as per Rules and S.C. & S.T. officials may be appointed against 18% reservation quota pending filling up of the posts through P.S.C.

9 According to the C&R Rules, there is no provision for reservation in the promotional quota. Any such reservation has to be done only in the direct recruitment quota of 33-1/3%. But since the promotions made from 1958 are far in excess of the 66-2/3% quota prescribed

in the C&R Rules and since no direct recruitment to the cadre of A.Es. has been made after 1.11.56 except the batch of 88 probationers in 1961, referred to above, it is for consideration if a certain percentage of the existing vacancies in the cadre of A.Es. may be reserved for direct recruitment, 18% of which could be allotted to S.C. & S.T.

D.S. PWD (Ser) No 557 Date 1-8-61

DPS) 18/1 -Note-

10 It is seen that the quota prescribed for the promotional vacancies under Division I has already been exceeded. It may therefore be necessary to earmark certain proportion of the existing vacancies for the purpose of direct recruitment in which case 18% of such vacancies may be allotted to S.C. and S.T. According to the Economy Order, it is necessary to keep 5% of the vacancies unfilled. It is, however, understood that there are some more vacancies of Asst.Engineers in the P.W.D., the details for which are however not readily available and is being ascertained. It may therefore be taken that we may be having further 10-15 vacancies of Asst.Engineers even after filling up the 100 vacancies for which proposal has been called for from the Chief-Engineer. Hence, we will not be infringing the Economy-Order in case all the 100 vacancies are filled up. Out of these 100 vacancies, we may perhaps ear-mark 30 vacancies for direct recruitment and 70 by promotion, both by graduates and non-graduates.

Secy. PWD. No 440. Date 9.1

Submitted for orders.

29.1.17

(V.Ramanathan)
Dy.Secy.,PWD(Services)

Secretary)

31.1.17

Note 5

This was discussed with the Secretary, The Cadre & Recruitment Rules of P.W.D. were issued on 3.12.60. Since then 595 posts of Asst. Engineers have been filled up by promotion of graduates and 37 posts have been filled up by promotion of non-graduates. In all, 632 Officers have been promoted to the Cadre of Asst.Engineers from 3.12.60. As reported by the Chief Engineer the total number of Asst. Engineers posts which are vacant and in which only in-charge arrangements have been made is 103. Therefore, in all the number of vacancies of Assistant Engineers that have arisen and have been filled up is 735. According to the Cadre & Recruitment Rules, 70 posts have to be filled up by promotion of non-graduate Supervisors and D'man in the ratio of 7:1. But so far 37 posts have been filled by promotion of Supervisors only. Therefore, the number that have to go to non-graduates according to the Cadre and Recruitment Rules is 33. Out of this, 8 or 9 posts have to go to D'man. So 24 posts have to go to Supervisors. If qualified D'man are not available, all the 33 can be filled up by Supervisors.

Out of the total of 735 vacancies that have arisen, after allocating 70 vacancies for non-graduates, 665 vacancies had to be filled up by graduates. Out of this, 33-1/3% i.e., 221 had to be filled up by appointment of Probationers and 444 by promotion of Junior Engineers. As against this, only 88 Probationers have been appointed in 1961 and all the remaining vacancies have been filled up by promotion of Junior Engineers. Thus the promotional quota for graduates has been exceeded.

WD 01050—GPB—8,00,000 13-12-65

3 It may not be desirable to recruit a large number of Probationers all at one time in the interest of the efficiency of the Department. Out of the existing 103 vacancies, 33-1/3% may perhaps-be filled up by direct recruitment and the remaining vacancies by graduates and non-graduates, in equal proportion.

Under Secy.,
P.W. & Elec.(Ser.A&B)

Secy

- 6 -

The Minister for P.W.D. may kindly see the note 5 ante prepared by the Deputy Secretary, P.W.D. about the vacancy position in the cadre of Assistant Engineers and the posts that are to be filled up by direct recruitment and by promotion in accordance with the existing rules of recruitment.

It is unfortunate that the Chief Engineer (C&B) inspite of our repeated instructions in the past did not furnish the vacancy position from time to time, with the result that there has been an accumulation of vacancies numbering 103 which have to be considered for appointment. The Deputy Secretary's note reveals that out of total number of 735 posts of Assistant Engineers only 88 posts have been filled by direct recruitment. This of course would be further verified. The remaining have been filled by promotion. The promotion has therefore been disproportionate to the number of vacancies to be filled as such in accordance with the Cadre and Recruitment Rules. To restore the ratio between the posts to be filled by direct recruitment and posts to be filled by promotion all the vacancies now available for the graduates will have to be filled by direct recruitment. Since a large number of Graduate Junior Engineers are serving in that capacity for more than 12 years it would be hard for them if all the vacancies available now for graduate Engineers are filled by direct recruitment. Moreover, it would not be an appropriate procedure to take direct recruitment on such a large scale. As a general policy also we should try to fill this gap by recruiting every year about half a dozen competent Graduates from open market through the P.S.C. Since the direct recruitment has not been resorted to right from 1962 onwards, we might request the P.S.C. to recommend suitable Graduates to fill 12 posts. The remaining vacancies may be filled by promotion of the Graduate Engineers and the Diploma holders. Since

Secy. PWD.
180. Dated 29.1

the quota of diploma holders also who are now holding the post of Assistant Engineers falls short of the ratio already fixed, the present incumbants on this post being only 37 against 70 posts, most of the vacancies have to go to the diploma holders. But this would result in dilution of technical standard in the cadre of Assistant Engineers. It would be better if the present vacancies are divided in the ratio of 4:1 between the Graduates and Diploma holders. If the above proposals are accepted, then the vacancies available may be filled in the following manner:-

780/PWS/69.

A

(1)	Direct Recruitment with the help of Public Service Commission.	.. 12.
(2)	Promotion of Graduate Engineers.	.. 73
(3)	Diploma holders.	.. 18.

I have called for the Confidential Reports of 200 Graduate and non-graduate Junior Engineers who are seniormost according to the final Inter-State Seniority List published recently. In the meanwhile, Cadre and Recruitment Rules are being amended to provide for the Graduate and non-graduate Engineers in accordance with the ratio already fixed.

The suggestion made above in regard to the manner in which the present vacancies are to be filled may be approved so that the vacancies proposed to be filled by direct recruitment may be reported to P.S.C.

Chief Minister.

Sec 3RD

Note - 10 -

It is only in respect of the cadre of Junior Engineers that the Pay Commission, in their report have felt that there is surplus staff. They feel that as against existing strength of 2044 Junior Engineers it would be adequate to have only 680 Junior Engineers considering the workload suggested by the Adviser, P.W.D., the remaining number being treated as surplus. This question would be examined separately.

But so far as the cadre of Asst. Engineers is concerned the Pay Commission has not suggested any reduction in the existing number of Asst. Engineers. Hence there is no possibility of any drastic reduction in the number of posts of Asst.Engineers even after the recommendations of the Pay Commission are implemented.

D.S. PWD (Sel) No 1593 Date 17/2

Further, it will take some time before these promotions are ~~not~~ actually made since it will take some time to amend the Cadre and Recruitment Rules, and get approval of the Cabinet thereto.

In the circumstances the proposal to fill up the vacancies in the manner suggested in Note-6 above may kindly be approved.

15

Engineers at present. In Note 6 above a decision has been taken that out of the existing 103 vacancies of Asst. Engrs (CE has since reported that there are 104 vacancies), 18 may be filled up by Diploma holders for orders if this requires any change in view of the present number of Diploma holders who are working as Asst Engrs.

DRS) 5/2 = 14

J.V 7/7/69 - 103 DS(W)

Kindly see the note above.

The Minister had kindly agreed at note 7 ante that the vacancies available in the cadre of Assistant Engineers might be filled in the manner suggested in note 6 ante. According to those suggestions, 18 posts are to be filled by promotion of diploma holders. This suggestion was made on the assumption that 37 posts out of 70 posts earmarked for diploma holders were already held by the non-graduate Engineers (diploma holders). From the above note, it appears that only 8 diploma holders are regularly holding the post of Assistant Engineers. In the normal course, 72 posts therefore should go to the diploma holders. Since such a large recruitment by promotion of the diploma holders to the post of Assistant Engineer would introduce an element of dilution of technical standard this quota may have to be filled gradually. 18 posts were suggested keeping in view the 33 posts available for the diploma holders. 50% of the vacancies namely 36 in the category of diploma holders may be filled by non-Graduate Engineers and the remaining vacancies by Graduate Engineers.

WD 01050—GPB—8,00,000 13-12-65

46

-15-

There are 104 vacancies at present. We had agreed to fill up 12 posts by direct recruitment. Generally, P.S.C. will take 12 to 18 months to finalise the selection even though we request them now to take action to recruit the Assistant Engineers. Moreover, they have to undergo probationary period of two years after recruitment. Thus there will be an interval of three years for absorption of candidates as full time Assistant Engineers.

In the course of three years, we may expect fairly a large number of vacancies occuring in the cadre of Assistant Engineers. It may not be difficult to absorb 12 persons by the end of three years. Therefore we can fill up these 12 posts by promotion. As regards the ratio to be maintained between the graduate and non-graduate Supervisors, the Junior Engineers of the year 1955 batch have not been promoted as Assistant Engineers even though they have put in 14 years of service. There is a lot of frustration among the graduate Junior Engineers. Therefore 80 posts ~~of~~ may be filled up from the cadre of Junior Engineers and the remaining 24 posts may be filled up from the cadre of non-graduate Supervisors as against 18 posts originally agreed.

In respect of vacancies in the cadre of Assistant Engineers that arise in future, they may be filled up in the ratio 1:1 till the quota of non-graduate Supervisors is fulfilled. The question of promotion is pending since one year. The Secretary will please process the Confidential Reports ~~and~~ early, and put up the eligibility list of officials who have to be promoted as Assistant Engineers.

Final decision has to be taken within one month positively.

Local candidates.

4) The Committee after going through the C.Rs. of the officials considered that the work of the following officials should be watched for one year before they are considered fit for promotion.

1. S.S. Kurhatti	997
2. K.G. Raichur	1000
3. B. Vasudeva Murthy	1013
4. M.S.Kempalingaiah	1029

5) Shri Made Gowda, No. 1049 was not considered as he was stated to be on unauthorised absence for a long time and his where abouts are not known.

5) In respect of the following officers none of the Chief Engineers were able to say where they were working.

C.E. C&B. stated that they are not working in O.O.D. posts also. None of the reports are available, As such the Committee con idered that their names need not be considered for promotion now.

1. K. Ramakrishna Rao	716
2. D. Ramanatha Rao	965
3. Venkoba Rao	966
4. K.Keshava Murthy	1006
5. P.N. Ragavendra Rao	1008
6. M.V.Deshpande	1009

6) It was reported that the following officials had resigned and as such their names were not considered.

1. Goverdanadas Agarwal 698
2. H.B. Lingaraj 921
3. B.T.Parasivaiah 1034
4. K. Rudrappa 1066
5. H. Rudraswamy 1068.

NON GRADUATES.

7) After going through the C.Rs. the Committee considered that the following officials are fit for promotion as Assistant Engineers.

1. D. Vasudeva Rao 74
2. Syed Hussanuddin 97
3. Tahir Ahmed 101
4. Iftekar Ahmed 102
5. Seetharamachari 103
6. Nagasetty 104
7. P.K. Parvathikar 106
8. Md. Iftekaruddin 108
   (His technical qualification to be verified)
9. M. Abdul Kareem 110
10. B.S. Maiti Pyati 111
11. G.Nagaraja Rao 112
12. K.R. Malli 113.
13. Mohammed Bedruddin 118
14. D. Anantha Rao 119
15. A.K.Gangadhara Alva 120
16. T.Krishnamurthy Achar 124
17. C. Rama Rao 127
18. M.M. Majid Khan 129
19. Krishna Rao Gunalkar 130
20. Mohamed Moinuddin Udgir 134
21. M.A. Hameed 135
22. B. Sangappa 147
   (His report for the year 66 only was available but C.E.(Gl) & C.E.(South) were of the opinion that he is fit for promotion.

23. Hameeduddin Sarmasth 149
(His name has been wrongly printed as Asamuddin Sarmasth. Correction be issued)

24. S.K. Gadgil 224

25. K. Ragavendra Char 240

26. S. Venkanna Bhat 241

27. B. Mithra Rai 245

28. H.S.Gopala Rao 281

29. K.N. Aswathanarayana 282

30. S.R. Subbaraya Shetty 284

31. S.N. Narayana Rao 285

32. Barmoji Rao 286

33. T.Govindachar 331

34. S. Govind 336

35. N. Ramachandra Palai 353

36. K.S.Wali 358

37. A. Mohan Rao 372

8) After going through the C.Rs. of the following officials the Committee considered that the work of the following officials should be watched for one more year before they are considered fit for promotion.

1. K.Krishnamurthy Rao 69

2. Tahir Mohammed 78

3. Dhalwarkar 99

4. S. Narayan 100

5. Mahamed Ansari 105

6. S.R.Nagaraj 117

7, N. Ramaswamy Naidu 125

8. Gulam Ahmed 128

9. S.M. Gangavathy 137

10. M.E. Khalique 138

11. S.M. Jafrey 139

12. Amanulla Khan 140

13. B.R. Kubsad 250
(as reports are bad but he has been incharge of S.B. for 15 years the Committee felt that he should be continued in charge and not reverted).

9) The following officials are graduates and may need not be considered under the lists of non-graduates. Further their reports are also not available. Hence their cases were not considered.

1.	Saffuddin Khan	121
2.	Syed Turbuddin	122 (He has already promoted as A.E.).
3.	Saleembinali	123
4.	K.S.Krishna Setty	145
5.	K. Ramaswamy	146
6.	M.K. Narayana Rao	242
7.	K. Krishna Murthy	243
8.	K. Nagaraj	256
9.	Ramachandra Rao Horur	257
10.	G. Vijendra Naik	333
11.	N.M. Naik	338
12.	S.N. Harapanahalli	351

The name of Shri S.M. Mahamood is found in two places at Sl.No.136 and 538. Since his correct position is at Sl. No.538, his claim is at Sl. No.136 was not considered.

27

10) The last promotion to the cadre of Assistant Engineers effected was in the year 1963. Since then only incharge arrangements have been made. It has so happened that a number of officials who are far below in the final Inter State Seniority List have been incharges of sub-divisions for a long periods. The Committee felt that it would not be fair to disturb them now while filling up the posts by regular promotion. The Committee is therefore of the view that those who are holding charge of sub divisions from a date prior to 1963 may be allowed to continue on incharge basis for the present and an equal number of posts of Assistant Engineers may be kept vacant.

~~It is seen that this number comes to~~

11) There are at present 104 vacancies of Assistant Engineers. In Note 6 to 12 a decision has been taken that out of the existing vacancies 12 should be filled by direct recruitment, 73 by promotion of graduate Junior Engineers and 18 by promotion of diploma-holders among Junior Engineers. On a further re-consideration, the Minister for Public Works has been pleased to order in Note 15 that 80 posts may be filled up by graduates and 24 by non-graduates. If promotions are ordered on this basis, the following graduates who were in charge of sub-divisions from a date prior to 9.10.63 (the last Promotion Order) will be disturbed:

1) R.G. Hamboli .. 8-9-60
~~2) C. Basvaraj .. 23-12-63~~
~~3)~~

As regards the nongraduates the following officials who have been in charge from a date prior to 9.10.63 will be disturbed:

1) B.R. Kubsud .. 13-11-57
2) K.S. Wali .. 11-57
3) K.B. Bellubbi .. 11-57
4) Ganesh Krishna Koulgud. 3-10-63
~~5) B.K.O. Shamaraja Setty. 12-63~~
~~6) K. Rama Gupta .. 18-12-63~~
7) C.S. Sreenivasa Rao 21-2-56
~~8) S. Nagappa .. 25-12-63~~
~~9) N.V. Halgi .. 12-63~~
10) G.R. Huilgol 11-57

12) As indicated in the earlier note, if the ~~direct~~ Cadre and recruitment rules are to be strictly adhered to, 72 posts will have to go to non-graduates since there are only 8 non-graduates working now as Assistant Engineers. But it will dilute the technical standard in the Department if 72 vacancies are filled up by non-graduates as stated in Note 14.

Orders are now solicited on the following points:

1) The number of posts out of 104 posts of Assistant Engineers to be filled by graduates and non-graduates.

2) Whether graduates and non-graduates who were holding the charge of sub-divisions prior to may be allowed to continue in charge, an equal number of such posts of Asst.Engineers being left unfilled in the quotas ~~of~~ fixed for graduates and non-graduates, out of 104 existing vacancies.

After orders are passed on this, proposals for promotion of graduates and non-graduates as Asst.Engineers from the eligibility list now prepared will be put up for orders.

12/8

D/S)

13) It appears there has been some representations from non-graduate supervisors that the graduate quota has far exceeded and that a larger number of existing vacancies should be filled up by non-graduates. While it is true that there are only 8 non-graduate Assistant Engineers at present as against the quota of ~~18~~ 80 prescribed in the Cadre and Recruitment Rules, it is equally true that the quota fixed for direct recruitment under Division-I has also not been fulfilled. As against 735 vacancies that have arisen since the date of C & R Rules came into effect, taking away 80 vacancies reserved for non-graduates, the balance would be 655. Out of this, 33-1/3 per cent would have to go for direct recruitment, i.e. 220 posts should have been filled up by appointment of probationers. As against this, only one batch of 88 probationers have been recruited in the year 1961. Therefore the quota fixed for direct recruitment has fallen short by 140 vacancies. Till such time as the direct recruits come through the normal channel of P.S.C. it shall be open to Government

to fill up the vacancies ~~of~~ on temporary basis ~~posts~~ by promoting graduates. Therefore, even if we fill up 80 posts out of the 104 vacancies by promoting graduates, there would be no injustice done since the excess over the normal quota could be set off against the vacancies earmarked for direct recruits on a temporary basis.

14) The lists of graduate and non-graduate Junior Engineers who can be considered for promotion as Assistant Engineers has been prepared after thorough examination by a Committee consisting of the Secretary, P.W.D. and five Chief Engineers. This list may be seen at note 19 ante, and also at flags 'A' and 'B'. Therefore orders are ready to be issued as soon as approval to this list is accorded. The latest orders of the Minister, P.W.D. on the proportion of Graduate and non-graduate Junior Engineers to be promoted as Assistant Engineers can be found at note 15 ante, according to which 80 graduates and 24 non-graduates are to be promoted. This number can be easily picked out of the 2 lists referred to above. The file is however submitted herewith as desired by the P.S. to C.M. vide U.O.1641/69 (Sl.No.3)

As desired by Chief Minister, I discussed on 9th and 10th September, 1969 with all Chief Engineers the question of filling up the vacancies of Assistant Engineers by promotion of Graduates and Non-Graduates in the most equitable way, having regard to the provisions of the C&R. Rules. The consensus of opinion of the Chief Engineers is as follows:

1. C. &. R. Rules should be strictly followed. The point that there will be dilution of technical talent if many supervisors are promoted at one stage against the admissible quota, it is felt, is not tenable. Most of these supervisors who come in the margin for promotion are already in independent charges of the posts. The C & R. Rules themselves prescribe this much dilution.

   It is also apprehended that if any Supervisor goes to the Court if the quota admissible under the C & R Rules is not covered it may result in the stay of all promotions. Therefore the C & R Rules should be strictly followed. This means that, out of the 104 posts to be filled up, distribution of vacancies should be as follows:

1. Direct recruitment vacancies.	10	
2. Promotion for Graduate Engineers.	22	
3. Promotion for Supervisors (Non Graduates)	63	(This covers full quota of Supervisors.)
4. Draughtsmen.	9	

2. As direct recruits will not be available immediately the direct recruitment quota mentioned above may also be utilised for promotion of graduate engineers.

3. In future the vacancy position of Assistant Engineers should be forecast one year in advance and action should be taken for recruitment through the P.S.C. This may be done in order to wipe out the gap in the direct recruitment quota in a phased programme.

4. ~~The~~ The Chief Engineers were strongly of the view that direct recruitment being conducive for building up a strong cadre of P.W.D. Officers should not in future be utilised for promotion of graduates or non-graduates. It was also felt that age limit may be

relaxed in the case of serving Junior Engineers to enable them to compete for selection by the P.S.C. against direct recruitment quota.

5. The vacancies are said to be 104. However it has been revealed during the meeting that several Junior Engineers on deputation to the Department of Town Planning and Department of Technical Education are posted in charge of Class II posts. The number of such posts has to be verified and added to the vacancy position. These Departments will have to be persuaded to take the promoted persons on deputation. In addition to this F.D. has agreed to the creation of one Division for Designs in the North Zone and proposals have also been sent for creation of one more division in the same zone. In addition to this two more divisions for C & B. in respect of High Ways are under consideration.

All this may give a considerable number of additional vacancies and they can be filled up by promotion of graduate Junior Engineers only, as the quota of Supervisors and draughtsmen will have been filled by giving 63 and 9 vacancies to them respectively. Necessary steps will be taken to locate the additional vacancies mentioned above.

The file is resubmitted for favour of orders.

SECRETARY 10/9/69

Secy. PWD. No 7063. Date 10.9.

Min. Public Works No:3507 Date. 10/9

MPWD

CM

1) Subsequent to the submission of proposals for the filling up of 104 posts of Asst.Engineers by promotions of Junior Engineers, the following additional posts of Asst.Engineers have become available:

1.	Technical Cell - Krishna Godavari Waters Dispute	2
2.	Bijapur Town Water Supply Scheme	2
3.	Upper Krishna Project Soil Survey Sub Division	1
4.	Manchanbele Project Sub-Division	1
5.	Highway Projects Division (C&B Zone)	10
6.	Office of the C.E. Irrigation Projects (North) Dharwar, Technical Assistant	1
7.	Upper Krishna Project Circle - Design Cell	1
8.	P.As to Executive Engineers of Bidar and Yadgir Divisions	2
9.	Mangalore Harbour Project	4
10.	Designs Cell - C.E. (North)	2
		26

Reference Note 24 and Minute of the Minister for Public works at Note 25, and Minute of the Chief Minister at Note-26.

2) Consequent on the decision (from Note 24 onwards) to increase the quota of promotion of non-graduates to 63, the Chief Engineers subsequently met for further screening of Supervisors eligible for promotion.

3) The number of graduates who are eligible for promotion has already been screened by the C.Es. at a meeting on 6th Aug.69 and a list of eligible graduates for promotion is as at paragraph 3 of Note-79. At the same meeting number of non-graduates screened for promotion was 37. A list of 37 non-graduate Junior Engineers who were considered eligible for promotion is at paragraph 7 of Note-79.

4) During the meeting held they considered the cases of persons from Sl.Nos.66 - 100 ~~xxkx~~ in the list at flag 'B' after going through the confidential reports. As per the screening recorded in Note 79, and the subsequent screening the following non-graduates are eligible for promotion to the post of Assistant Engineer in the order of seniority including those already screened:

5) As per the screening made the total number of non-graduates eligible for the promotion is 58. This number falls short by 5 as against the 63 promotions to be made as decided. Therefore for making further selection, the Chief Engineer has been asked to send the confidential reports of eligible non-graduates Supervisors further down in the seniority list for

promotion. As a result of screening, the following non-graduate supervisors are considered as not fit for promotion in addition to those at paragraph 8 of note 19.

Sl.No.	Name	Rank in final I.S.S.List
	Syts.	
1.	G.K. Hukkeri ...	465 } whereabouts not known.
2.	M.S. Joshi ...	466 }
3.	B.K.G. Shamaraj Setty	490 }
4.	K. Rama Gupta ...	491
5.	Azeezur Rahiman ..	500
6.	S.S. Srinivasa Rao	505
7.	C.H.V. Reddy ...	506
8.	Gopala Rao Kepalker	526
9.	Basappa ...	537
10.	S.M. Mohamed ...	538
11.	C. Krishna Rao ..	539
12.	T.C. Veera Setty	606

The following two persons are retired:

1.	R.H. Koulgi ...	461
2.	N.V. Halgi ...	464

6) Subsequent to the counting of 26 extra vacancies in Note 22 certain more vacancies have come into the reckoning. They are:

1) Retirement under Rule 285 MCSR..	9
2) Deputation of E.E. Ports Dn., to Mangalore Project. ...	1
3) Vacancy existing in view of the deputation of Sri. C.B. Lakshman Rao to Roorki. ...	1
4) Court Building complex ...	1
5) Death of Sri. Huddappa, A.E. K.R. Sagar.	1
6) M.S.C.C. ...	1
(Sri M.A. Narasimhan, EE (Ly Delhi) 9) Rehabilitation of New Mysore Employees ...	1 to Sindhanur

7) Taking into consideration the increase in the number of vacancies, the number of graduate Supervisors

to be promoted will be 71. In the draft Notification put up the number of non-graduates provided in the present batch is 58. After further screening the remaining 5 will be provided.

7) Reference is invited to paragraph 4 of Note 19. It was considered that among others the case of Sri.B.Vasudeva Murthy may be considered for promotion after watching for one year. It is seen in the C.Rs., sent by the C.E. that the C.Rs. which is purported to pertain to Sri. B.Vasudeva Murthy, actually pertains to two different persons of identical name. It is seen that one of these is a Junior Engineer whose date of birth is 15-4-32 and the date of entry into service is 26-12-1957. Evidently this cannot be the official who could find a place in the I.S.S. list. The confidential reports of this person is not good (flag V). The other Sri.B.Vasudeva Murthy, it is seen, has entered the service on 7-7-56 and his date of birth is 3-12-1927. It is evident that this is the official who comes in the I.S.S. list at No.1013. The confidential reports of this official are good (flag S).

There is obviously a mistake with

✓ The C.Rs accordingly.

8) The Confidential Reports are placed below and this is for consideration (flag S)

Reference Note 24.

29/11/62

29/11/62

As regards the Draughtsmen, a meeting of the Chief Engineers has been convened for screening the eligible persons and also to consider the question of equivalence of certain qualifying examinations which are not actually named as Diplomas. According to the

C.& R. Rules Draftsmen would be eligible for promotion if he has the ~~with the required~~ qualification of a pass in Diploma issued by Polytechnic. But from the service particulars of several of the Draftsmen it is seen that there are certain qualifications which are almost all equally important for even more significant than the qualification of the Diploma. Therefore it has been considered necessary ~~kxx~~ to examine this point before we take steps ~~to~~ promotion ~~of~~ Draftsmen against their quota. This is being done separately.

10 During the screening of non-graduatex Supervisors the C.Es. have proposed one point. They held the view that Supervisors who are not at least Diploma-holders will not be suitable for being appointed as Asst.Engineers. It is however pointed out to them that as the C&R Rules stand there is no scope to restrict the promotion only to the Diploma Holders. Therefore even though some of the persons who may not be actually Diploma-Holders are to be promoted on the basis of their good record, while posting arrangement is made the C.E. concerned may ensure that they are given posting for maintenance or similar types of work.

11 It may be noticed that in the vacancies which have been counted we have not been able to count vacancies ~~xxx~~ the Town Planning Department, because they did not agree of their being included in this list. It is seen that among the eligible persons due for promotion in the Town Planning Department (1) Sri.T.N. Galgali and (2)B.V. Ramanarasimhaiah are eligible to be promoted in the quota of graduates. They are working at present in the Town Planning Department. These two persons can be provided

proforma promotion in that Department itself, and the resultant vacancies can be given to the next juniors. Draft notifications put up in accordance with the above proposals are for approval.

29/11

Seen
Discuss.

The Secretary reviewed the cases of the persons rejected for promotion in the list of non-graduate Supervisors from Sl. Nos. 66 to 100 as he was not present with the meeting of Chief Enginieers when this screening was made. It was seen that the C.R.s of some of the persons such as Sriyuths: Srinivasa Rao, G.H.V. Reddy, S.M. Mahamood & Veerashetty are not such bad as to come to a decision to overlook them for promotion. It was felt that these cases should be considered for promotion.

The case of Sri Gangavati at Sl. No. 36 was also reviewed in view of certan representations made to the Chief Minister. The Screening Committee had not ruled him out but had said that his case may be deferred for one year. His reports have been examined by the Secretary. Report for 1966 is just satisfactory. In the report for 1967 the following positive observations have been made:

> " He has got good experience of executive as well as office work. He is hard-worker. He is studious, well-built, and takes pains in work. He has got a very long service and his case for promotion is worth considering as he has got knowledge of P.W D. and all sorts of works in the Department".

In the 1968 report some adverse observations have been made as follows:-

follows:- 4|

" Technically poor, delays submission of field particulars in time.

" Commands subordinates well "

As against the adverse observations the Superintending Engineer has made the following observation:-

" I intend to examine the opinion of other officers"

Thus in an over-all assessment his case cannot be considered as a bad case. The Secretary has therefore felt that he shpuld be promoted.

14. As regards the case of Sri B, Vasudeva Murthy referred to in paragrah 7 the Secretary perused the records. The confidential reports of two persons with identical name has been mixed up when the records were sent by the Chief Engineer's Office. The person who is in the reckoning in these proposals is Shri. B. Vasudeva Murthy with the birth date 3-12-1927; date of entry into service being 7-1-1956. The other person's birth date is 15-4-1932 and date of entry into service is 26-12-1957. (that is after the date of re-organisation). While the latter's reports are bad the former's ~~good~~ report are good.

Sri. B. Vasudevamurthy with the date of entry into service (with date 3-12-27) as 7-1-1956 has to be promoted. Attention is also invited to para 8 & note 19. The comittee has recommended that he should be continued in charge.

Necessary draft notifications are put up.

A

Shri B. R. Kulkarni Instructions will be issued to the C.E. in this regard.

The C. R. of the above persons are placed below.

GOVERNMENT OF MYSORE

No. PWD 13 SAG 69

MYSORE GOVERNMENT SECRETARIAT,
VIDHANA SOUDHA,

Dated, Bangalore, 10th Dec. *19*69

FROM

The
Secretary to the Government of Mysore,
P.W.& Elecy. Department.

To:

The Chief Engineer,
Communications & Buildings,
Bangalore.

Sir,

Sub: Additional charge - continuance of -

I am directed to invite your reference to notification No.PWD 13 SAG 69(1) dated 6th Dec.69 notifying the promotions to the posts of Assistant Engineers.

In this context, I am to state that the Screening Committee which was constituted for the purpose of screening the officials for promotion to the post of Asst.Engineers reconsidered that though the confidential reports of Sri.B.R.Kupsud are bad, he should be continued in charge and need not be reverted since he has been in additional charge of Asst.Engineer for the last 15 years. The Government has accepted the recommendation.

You are requested to take necessary action.

Yours faithfully,

(C.R. Subba Rao)
Under Secretary to Govt.,
P.W.& E.Dept.(ServicesA&B)
